

PORTABLE DIGITAL pH METER pH-STICK MODEL 612

FEATURES

- All solid state design
- 0.31" high LCD display readable under bright ambient conditions
- Low drift and high stability
- Fast input response
- Battery low indicator
- Low power consumption
- Display hold function
- Slope adjustment
- Manual temperature compensation
- One conventional 9 Volt battery
- Easy to use
- Low cost

SPECIFICATION

Range

Range 0 to 14.00 pH

Resolution

Resolution 0.01 pH

Accuracy

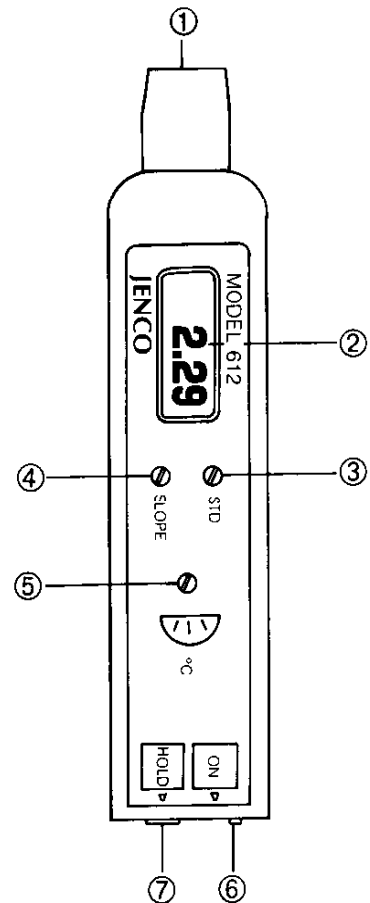

Accuracy ± 0.05 pH ± 1 digit

General

Input impedance	Greater than 10 to the 12th Ohms
Operating temperature	0 to 40°C
Temperature compensation	Manual 0 to 60°C
Display	8mm high LCD
Display hold	Yes
Power source	One conventional 9V battery
Dimensions	172mm x 35mm x 28mm
Weight	128 gms

ACCESSORIES

Electrodes
Buffer solution, pH 7.00
Buffer solution, pH 4.01
Distilled water
Operating manual (included)
Carrying case

- ① ELECTRODE CONNECTOR
- ② LCD DISPLAY
- ③ STAND CONTROL
- ④ SLOPE CONTROL
- ⑤ TEMPERATURE CONTROL
- ⑥ ON/OFF SWITCH
- ⑦ HOLD SWITCH
